Tom: F
Intro: Dm C Dm C
Dm C Dm C

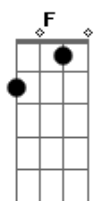

Dm C
I've been waiting on your conscience to call
Dm C
And maybe hear your little voice on the phone
Dm C
And now I'm treading water
F
It's getting hotter
Gm
The ocean is much bigger than me
Dm C
And now I need it more than ever before
Dm C
I'm just knocking in my head on your door
Dm C
And you know I still feel it
F
And I still need it
Gm
This bottle's full now

Dm C
Sitting here waiting on you, goddammit
Dm C
Packing up, my hotel room I planned it
Dm C
Different in my head when I thought of love
Dm C
I'm looking at the shimmering stars above
Dm C
And everyone reminds me of you and
Dm C
Everything that we've been through, damn
F Gm Dm

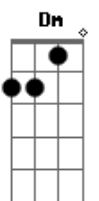

Everything is coming back to me tonight
(Dm C Dm C)
Dm C
I've been running in circles for days
Dm C
And you know me it's never ever going away
Dm C
But then you keep me waiting
F Gm
I won't change it for any other girl in the world
Dm C
And I could but every time I think it's the end
Dm C
You show up fucking everything in my head
Dm C
Then I'm treading water
F
Falling faster
Gm
This bottle's empty

Dm C
Sitting here waiting on you, goddammit
Dm C
Packing up, my hotel room I planned it
Dm C
Different in my head when I thought of love
Dm C
I'm looking at the shimmering stars above
Dm C
And everyone reminds me of you and
Dm C
Everything that we've been through, damn
F Gm Dm
Everything is coming back to me tonight
