

# S.O.J.A. (Soldiers of Jah Army) - When We Were Younger

Tom: F  
Intro: F C Dm Dm Gm F C C

F C  
I never really got why we're here

Dm Bb  
Just look at all we build in our lives and we all disappear

Gm F  
Few of us are born with so much

C C  
While most of us just chasing down a dream that we just can't touch

F C  
So why we try so hard in this place?

Dm Bb  
When pain and suffering is a guarantee and happiness is a phase

Gm F  
I wonder if one day we're at peace

C C  
Or will this whole world just become like the middle east?

C Dm  
But when I was younger, when I was younger

Bb F  
I had the answers, I've got to say

C Dm  
But all of my answers, now that I'm older

Bb F  
Turned into questions, in front of me

F C  
I wonder where we go when we die

Dm Bb  
If there is anything past our lost sun and our sky?

Gm F  
Cuz airports only take us so high

C C  
Is it hidden in the stars? What's the answer to your soul lying?

F C  
I wonder do we get to come back

Dm Bb  
I wonder if I will remember these questions I've asked

Gm F

Will I just star over again?

C C  
I hope it's not too hard to find all of my old friends

C Dm  
But when we were younger, when we were younger

Bb F  
I had the answers, I've got to say

C Dm  
But all of my answers, now that I'm older

Bb F  
Turned into questions, in front of me 2x

F C  
I wonder if we get one true love

Dm Bb  
Or maybe there's a few out there or maybe not even one

Gm F  
I wonder if it's made up by man

C C  
I wonder if love is what we make with our own two hands

F C  
I wonder why I write all these songs

Dm Bb  
I wonder if you know what you're saying when you sing along

Gm F  
And will you know my name when I'm gone?

C C  
Or are you just too sick of these love songs?

C Dm  
But when we were younger, when we were younger

Bb F  
I had the answers, I've got to say

C Dm  
But all of my answers, now that I'm older

Bb F  
Turned into questions, in front of me 2x

C Dm  
Right in front of me, in front of me

Bb F  
Everythings changes in front of me

( C Dm Bb F )
