

sombr - my house is warm

tom:

I wanna call your phone with nothing in mind
Just to hear you breathe on the other line
I try to reach for you, but your skin's full of thorns
Oh, this town is cold, but my house is warm

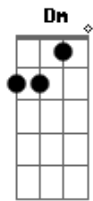

How did it end like this?
I wanna talk to you, talk to you again
How did we get here so quick?
I watch you walk right past me
Like we never did what we did

I can't right my wrongs, but I can write another song
I can't take you out, but we can get along
If I went away, would you chase the train?

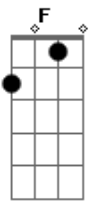

Oh, this town is dark, but my house is warm

How did it end like this?
I wanna talk to you, talk to you again
How did we get here so quick?
I watch you walk right past me
Like we never did what we did
Never did what we did
We never, never, never did what we did
Hey, yeah
I still see your face in every single crowd
Oh, I just wanted to make your mama proud
Maybe in another life, I can
Call your phone just to hear you breathe again
