Bm                                  E
Even when you're home  You won't pick up your phone
      A7          Gbm
And take my call
        Bm
When I see you on the street
      E                             A7
You stare down at your feet  You won't talk at all
      Am7
If only you would see me  One more time and maybe
 Bm7               Em       Am7
Some day you will find That you could really love me
Am7                       D                      E
You could really need me Maybe you could change your mind

It seems that all the time  The thought is on my mind
  A7
Of being with you

The times I've tried to see you
 Am7                  Bm7             Em

But still you just refuse And no matter what you do

I'll never let you get away
