Standard little blues riff. It repeats itself throughout the

song, except during the guitar solos, which I couldn't transcribe, but basically if you dick around and put in a little bass solo during the guitar solo, it'll sound cool (just keep in key and keep in tempo). Well, this is my first transcription. If there are any problems, please e-mail me at [C](mailto:C@ukulele-chords.com) (yes, I am an aoler, I feel much shame). Thanks!
