

South Arcade - Blood Run Warm

tom:
[Verse 1]
? There's something about ya, I cannot explain
I'm a natural disaster, but you don't mind the rain
If I let you in, I doubt you would feel the same
'Cause until now, never had the guts to say
You make my blood run warm

[Chorus]
Like nothing I felt before
You make my blood run warm
(Don't know what I'm waiting for)

[Verse 2]
? When my world was burning, you walked through the flames
(Never gonna let you go, never gonna leave your side)
And said to me that everything's okay
(Never gonna let you go, never gonna leave your side)
I should run and hide, I don't wanna make you wait (You said)

"You're stuck with me, I don't care how long this takes"

[Solo]

? ? ? ?

[Bridge]
Don't break my heart, I'll play my part
What if you aren't real?
Show me life on the stars, can't be too hard
What if you aren't real?

[Chorus/Outro]
You make my blood run warm (Don't break my heart)
Like nothing I felt before (I'll play my part)
You make my blood run warm (What if you aren't real?)
You make my blood run warm (Show me life on the stars)
Someone worth trying for (Can't be too hard)
You make my blood run warm (What if you aren't real?)
Don't know what I'm waiting for ?
