Tom: D

   Intro: A Bm G

```
A
  I don't know how you do it
                              G
But somehow you always will be there
A
  And there's nothing to it
                              G
But somehow you've always understand

                         A
There's no way to wake up now
                    G
Too many times I saw you cry
                   A
No one can make up ...
                    G
You wait for the sun to make the sky
```

Chorus:

```
  A                   Bm        G
(No one) elevates you, elevates you now
  A                              Bm      G
(No one) is going to take you, going to take you there
```

```
A
All this time, never thought I would see you
G
```

```
Smile
A                                        G

                               A
But I know I can't walk it
                  G
Never go back again
                        A
No matter how, tonight I'll
                          G
Never go back, never go back again
```

Chorus:

```
  A                   Bm        G
(No one) elevates you, elevates you now

(No one) is going to take you, going to take you there
```
