

Starfish100 - Far Away

tom:

G

Intro: G C Am
G C Am
G C Am

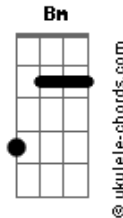

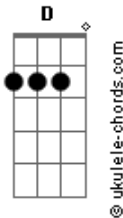

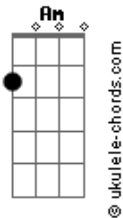

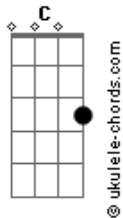

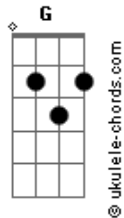

Alone and in circles we could get colouresque and blue
Through all those endless days, thinking about you
Today is the day we walk away, getting out of this
I dread these days , i find new ways i find

You're far away, you're so far away
With each day that passes by i'm losing you
You're far away, you're so far away
With each day that passes by i'm losing you
(G C Am)

Finally alone i feel like covered up by you
I've been shaken up and fazed
Somehow useless and disgraced

Here we again we feel so restless and so stained

Acordes

I find it all in waves sickly sweet sustained
I find it all

You're far away, you're so far away
With each day that passes by i'm losing you
You're far away, you're so far away
With each day that passes by i'm losing you

In useless conversation
I'm avoiding confrontation

[Solo] Am C

Alone and in circles we could get colouresque and blue
With all those single days thinking about you
Thinking about you

You're far away, you're so far away
With each day that passes by i'm losing you
With each day that passes by i'm losing you
