

# Starset - Antigravity

Tom: C  
Intro: Am C F E

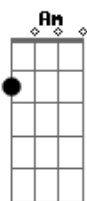

The more I fight, the more I work  
The more I dig into the dirt  
To be fed up, to be let down  
To somehow turn it all around  
But then fate knocks me to my knees  
And sets new heights beyond my reach  
Below the earth, below concrete  
The whole world shackled to my feet  
(Refrão)  
Then it falls away into the great escape  
Over walls and weights  
This antigravity taking over me  
Am C F E  
And far below, the carnivores,  
Are looking up to where I soar  
Above the clouds, above the storm  
Above the earth I am transformed  
The energy has set me free  
And pulled me through the galaxy  
I've risen up beyond the sky  
I am awake, I am alive  
(Refrão)  
As it falls away into the great escape  
Over walls and weights

This antigravity  
Let it fly through the universe into the outer space  
Over walls and weights  
This antigravity taking over me  
Am Abm F (x3)  
Dm E  
I won't come down  
If you wanna break free  
You know where to find me  
If you wanna break free  
You know where, you know where  
If you wanna break free  
You know where to find me  
If you wanna break free, you know where  
(Refrão)  
As it falls away into the great escape  
Over walls and weights  
This antigravity  
Let it fly through the universe into the outer space  
Over walls and weights  
This antigravity taking over me  
If you wanna break free  
You know where to find me  
If you wanna break free  
You know where, you know where  
Am Abm F  
Antigravity (x3)  
Am Abm F
