

State Champs - Around The World And Back

Tom: E

E E
Been around the world and back this year
E E
Told myself I wanna face this fear
E A2 E A2
But I don't think I can stand on my own
E E
She's got eyes like spring, legs like the summer
E E
Everybody says she looks just like her mother
E A2 E A2
But I think she wants that left alone

Dbm B A2
There's too many ways to say goodbye
Dbm E A2
But it's quite the opposite this time

Dbm B
Sometimes I can't help but say
A2
I'm falling in love and it's scaring me
Dbm B
It came to me in a dream
A2
Now all that's left is our empathy
A
But this is just the life I ordered
A2
One step back and two steps forward
A
Sometimes I can't help but say
A2 B
We're making history

E E
Been around the world and back this year
E E
I never wanted to be so sincere
E A2
I'm not a hero or a saint
E A2
But don't push me away
E E
When you believed in me it brought us together
E E
Everybody says that it won't last forever
E A2 E A2
Close your eyes, don't cut the ties, it makes sense

Dbm B A2

Our history

A2 E
You pulled me in like a tidal wave
Dbm B
And let ourselves just float away
A2 E Dbm B
With no direction, or a way to rewind
A2 E
Yeah, you pulled me in like a tidal wave
Dbm B
Thought that it was my mistake
A B A2
And we'd fall apart before I say goodbye

But it's quite the opposite this time
