

State Champs - Easy Enough

Tom: C

You've got me thinking about it
 Don't know my way around it
 Got me wishing I could say the things I don't
 See, I was traveling; the mess that we were in
 could only make me wanna stay out on the road
 But when the trust falls, missed phone calls
 long live the problem child
 But I think I'll stay a while
 Now I don't think I'll ever
 feel like this again
 I'll never feel

We're suspended in time
 from the likes of you
 but I'm willing to prove
 you've got more fight left in you
 We're suspended in time
 from the likes of you
 Yeah, it's true
 So you can take it from me

I just wanna be more than a memory
 (You've got me thinking about it, don't know my way around it.)

Impeccability is what you said to me
 See, I was busy trying to figure out
 what it is that you were talking about

Don't think I'll ever feel like this again
 I'll never feel

We're suspended in time
 from the likes of you
 but I'm willing to prove
 you've got more fight left in you

We're suspended in time
 from the likes of you
 Yeah, it's true

So you can take it from me

I just wanna be more than a memory
 It's hard enough for me to say this
 Easy enough when you're the faceless
 It's impersonal
 I just thought you should know
