

Steven Universo - Don't Cost Nothing

Tom: F

Bright sunny day don't cost nothing
Light summer breeze don't cost nothing
What do I do with all this money?
When the only thing I want is you

Palling around don't cost nothing
Singing a song don't cost nothing
How do I spend all this money?
I'd rather just spend time with you

You could buy a house and a car
I guess that I can but I've already got a van
I could put you through college
But I'm with the Gems all the time
Or I could buy you all the finest courses online
What if we took a trip?
Do you think?

Yeah I do! We could take a vacation
We could go somewhere new

Tailor-made suits, those cost something
Room with a view, those cost something
Dancing with you
Don't cost nothing
Why'd we even come, we could've done this at home
Singing a song don't cost nothing
Or was it palling around, don't cost nothing
Getting it wrong
Don't cost nothing
I tried
I'm surprised you remembered any of it
What can I say, it's catchy
It's over, isn't it?
It's over, isn't it?
It's over, isn't it...
