

## Steven Universo - Don't Cost Nothing

```
Tom: F
                          C7M
                                                                                                                                                                     Dm
Bright sunny day don't cost nothing
                                                                                                                                                                               Bb
Light summer breeze don't cost nothing
                                                                                                                                                           Em
                                                                                                                                                                                                                                                A7
What do I do with all this money?
                                                                                Dm
When the only thing I want is you
                                                                                                                  Dm
Palling around don't cost nothing
                                                                                                                              Bb
                                                                                                                                                                                                                                  C7
Singing a song don't cost nothing
                                                                                                                                   Em
                                                                                                                                                                                                      A7
How do I spend all this money?
                                                                                                                                                                                                G7
                        Dm
I'd rather just spend time with you
You could buy a house and a car
                                                                                                                                                           F7M
I guess that I can but I've already got a van % \left\{ 1\right\} =\left\{ 1
I could put you through college
But I'm with the Gems all the time
                                                                                                                                                                               F7M
Or I could buy you all the finest courses online
What if we took a trip?
Do you think?
```

F7M

```
Yeah I do! We could take a vacation
       A7 Bb7
We could go somewhere new
Tailor-made suits, those cost something
               Bb
Room with a view, those cost something
Dancing with you
Don't cost nothing
Dm
Why'd we even come, we could've done this at home
                      E7
Singing a song don't cost nothing
Or was it palling around, don't cost nothing
Getting it wrong
Don't cost nothing
  Dm
I tried
I'm surprised you remembered any of it
What can I say, it's catchy
It's over, isn't it?
C7
It's over, isn't it?
It's over, isn't it...
```
