

# Steven Universo - Let's Only Think About Love?

Tom: D

m  
Mom was a Diamond who invaded Earth  
Saw its beauty and its worth  
Mom made an army and she fought herself  
Did that even end up mattering when she faked her own shattering?  
Mom lived in hiding by the name of Rose  
But the friends she'd made, and the form she chose  
Now all that's left of her exists in me  
And I think that we can all agree  
That is a little bit upsetting  
I'd rather think about... a wedding!

Let's think about cake  
Let's think about flowers  
Let's think about dressing up and dancing around for hours  
There's an awful a lot of awful things we could be thinking of!  
But for just one day let's only think about love

Okay, Sapphire~!  
I gotta get dressed for our big day now so... no peeking  
And no future vision either~!  
Okay  
Oh, Steven  
I just wish I could've said something sooner about Rose and Pink  
We could think about lies  
That we told in the past  
We could think about hurt feelings  
And how long they can last  
Or we can think about hope  
Hope?  
You know I've been hoping  
About what?  
That everything is better now  
Everything's out in the open  
Bismuth?  
Is that what you're wearing to the wedding?  
It's the nicest thing I own  
Looking sharp~!

We could think about flowers  
We could think about cake  
We could think about wonderful promises we have the power to make  
There's an awful a lot of awful things we could be thinking of!  
But for just one day let's only think about love  
Maybe I shouldn't have picked up roses  
Maybe a little... controversial  
We could all rethink how we feel about Rose  
When it comes to Pink, and the things that she did in the past I suppose  
Yeah  
Or we both could feel better  
Because we could think about how  
We could think about us  
And we could think about now  
No worries, Peridot is gathering more flowers right now  
I'll go get her  
But for just one day let's only think about...  
Peridot?  
What if Lapis was right?  
Sooner or later, the Diamonds are gonna come for the Cluster  
We are all gonna die here!  
We could think about war  
We could think about fighting  
We could think long lost friends we wish we were inviting  
We could think about the broken gems and the Cluster at the planet's core  
Or we could think about the bubble we made so that they can't be hurt  
Any- they can't be hurt anymore  
We can think about joy  
We could think about pain  
We could think about sunshine  
We could think about rain  
There's an awful a lot of awful things we could be thinking of~!

**Dm7**

But for just one day let's only think about~

**Dm7**

Just one day let's only think about

**G**

**Dm7**

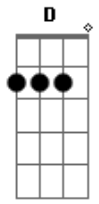

**G7**

Just one day let's only think about

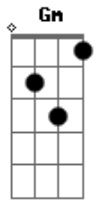

**C**

Love
