

# Stick Figure - Easy Runaway

tom:

Intro: Gbm A Gbm A

[Primeira Parte]

Gbm  
It's like this song was already written

Let's sit back, relax and have a listen

A  
Listen to the message

No time for second guessing

Life it is a blessing

Don't focus on what's missing

Gbm  
When you're stressed out take a deep breath

I hope that you can see it

The world needs people like you

You're here to make a difference

A  
Go on and make a change, step into the rain

And I believe in you and someday we will meet again

[Pré-Refrão]

Gbm  
I'm a hundred million miles from where I thought I was

I'm starting to become the person that I knew I could

A  
So here I am, here I stand

I'm becoming a better man

The man upstairs has his plan, so understand it's all written

Gbm  
It is alright

I got to make it alright

[Refrão]

A  
It's so easy, easy

Gbm  
It's gonna be alright, alright

A  
It's so easy, easy

Gbm  
You've got to make it alright

Said I got to make it alright

[Segunda Parte]

Gbm  
So your soul it has awoken

Singing the songs and the words that have been spoken

A  
Put your mind at ease with this melody

Love don't cost you nothing, so set your loving free

Gbm  
So your world it has been shaken

Your heart it has been breaking

Ask what more can I do

But the answer's deep inside you

A  
So look and you shall find

Leave the past behind

Have a little faith, everything will be just fine

[Pré-Refrão]

Gbm  
When I look up to the sky I see no broken dreams

I see an angel in the sky who's smiling down on me

A  
She says hello, even though I might find myself alone

She gives me love, gives me hope

When I'm lost she takes me home

Gbm  
It's alright

Said I got to make it alright

[Refrão]

A  
It's so easy, easy

Gbm  
It's gonna be alright, alright

A  
It's so easy, easy

Gbm  
It's gonna be alright

You've got to make it alright

A  
Take it, take it easy

Gbm  
Come on baby, take it easy

A  
Come on take it easy

Gbm  
Come on baby take it easy, yeah

A  
Everything will be just fine

[Final] Gbm A
