

Sticky Fingers - Willow Tree

tom:

Gb
You give me a reason but I already know
Cause nature's got a good way of telling
When my fingers get too deep
The willow tree it sing to me
And I can't seem to find a peace of mind

Gb
Cause even when the willow tree it sings to me
And the band is rocking steadily
There's a storm underneath it all that's brewing

Gb B
You give me a reason but I already know
Cause nature's got a good way of telling
When the mountains get too steep
You look up above and yes you look for your soul
And he gets off his cloud and yes he says hello
My friend in me, the willow tree
Has just got to go with the flow

B
Cause when your time is up ad there's nothing to show
And your bridges are burnt and there's nowhere to go
You say son you better get building a fucking canoe

Gb B
See the spider's spinning out of control
It is those who try to fly who pay the toll
Cause even when the willow tree it sings to me
And the band is rocking steadily
There's all these rickety creatures trying to pull me down

Gb
You give me a reason
But I already know
You give me a reason
But I already know
