Bm A
I've been waiting for so long

For a feeling just like this

That makes me fly away

I could say a million words
Gbm
To describe what now you mean
Bm Gbm G A
But the words would never end

(bridge)

G A
When hope was going down
G
When heart was broken and lost
A
Then you came to bring reasons to go on

(chorus)

Save me now, don't tear me down

'Cause by your side I find my ground
Bm G A
In your arms I know I've found my shelter

Hold me now, don't let me down

You're the only one who shows me how
Bm G A
Life might be better, you're my shelter

There's no end for what I'll do

The mist that clouds my life

And take me to the brightness
