Sting - Bring On The Night

Tom: G

From: Howard Wright (Hman)
Subject: p/police/
Date: Thu, 7 Sep 1995 10:38:56 0100 (BST)

```
                          Tabbed by Howard Wright
                          H.W
```

Most of this song has one riff going along throughout the verses, then
it changes to a few chords for the chorus.

Simple stuff, but very good !
Intro: /Verse :

I havn't written any 'slide' symbols, but obviously you're moving pretty

much the same shape up and down, so you get some of the notes sliding up
and down - like when you change from the 5th fret to the 12th.

This pattern repeats for the verses, then goes into:

Chorus :

(Hit the chords on the offbeat : 1 AND 2 AND 3 AND 4 AND   etc)

```
                  Bring on the night                              I couldn't stand
```

 another hour of daylight

Repeat sequence once.

That's about it !

Acordes
