

# Stone Sour - Song #3

Tom: G

If you take a step towards me  
 You will take my breath away  
 So I'll keep you close  
 And keep my secret safe  
 No one else has ever loved me  
 No one else has ever tried  
 I never understood how much I could take  
 Then I saw the worst was over  
 When I laid my eyes on you  
 It was all that I could do to know my place  
 Out of all the vast illusions  
 Out of all the dreams come true  
 I was gone until  
 I finally saw your face  
 If you cried out for more  
 If you reached out for me  
 I would run into the storm  
 Just to keep you here with me  
 I have gone beyond my years  
 I've wasted half my life  
 But I found it all in you  
 Did I save you?  
 'Cause I know you saved me too  
 Let me take a step towards you  
 Let me feel you in my hands  
 Let me cross this line  
 And show you where it leads  
 There's a darkness down inside me

That I know we'll both enjoy  
 And its screaming from within to set it free  
 I have left this bloody nightmare in my wake  
 Bored out of time  
 All i want is deviation by design  
 I don't follow past confusion  
 Out of all the common spite  
 Just tell me I am yours  
 'Cause you are mine  
 And if you cried out for more  
 If you reached out for me  
 I would run into the storm  
 Just to keep you here with me  
 I have gone beyond my years  
 I've wasted half my life  
 But I found it all in you  
 Did I save you?  
 'Cause I know you saved me too  
 It doesn't really matter what you do or say  
 I'm never going anywhere anyway  
 Cause when I'm dying for you  
 I've never felt so alive!  
 If you reached out for me  
 I would run into the storm  
 Just to keep you here with me  
 I have gone beyond my years  
 I've wasted half my life  
 But I found it all in you  
 Did I save you?  
 'Cause I know you saved me too
