Hello, it's late
You know I've tried to stop the rain
                                                              [Refrão]
Did you read about it?
                                                              C7M
                                                              It's just a game
Did you think about it?
                                                              That we used to play
             Em
Did you cry, but nothing came?
                                                              C7M

Nothing matters again

Hello it's late

I know we tried to win the game
                                                                   E E

Did you hear about it?
                                                              E E
Did you dream about it?
