 strum up verse   v   v   v

you'll have to find the lyrics somewhere else. I are not to  
 good words chor v   v   v   v   v

I have the intro verse and chorus and second interlude but I  
 could not figure out the first interlude I guess you can use sec inter   v   v   v   v   v   v   v  
 the cords in  
 the intro for the first interlude. Also, I think it sounds  
 better when you solo
