

Stone Temple Pilots - Transmissions From A Lonely Room

---Transmittions From **A** Loneley Room Bass Tab---
 Album--Shangri-La Dee Da
 Transcribed By--Jay Ochs
 Bassist--Robert DeLeo

Ok, like all other STP songs, this is regular tuning.
 In this, I can hear that Robert is using the Fuzz Distortion effect on the bass, but it's not a bigl amount, so if ya have Fuzz, use it. And like usual, there are some lines where there's more little --'s between the numbers. That just means there's a slight pause where you hold that note for a little longer. Just listen to the song as you do this, and it'll sound great!

G-----
 D-----
 A-2-0-2-----

E-----0--- This is the beginning, do this 4 times.
 Here's the Verse:
 G-----
 D-----9-7-----5-7-5---7---7-8-9---7-9---9-7-9---
 A---7-7-7-7-----
 E-----

Here's the Chorus:
 G-----
 D-----5---7---7-7-9--7-9-9-7-9-7
 A--0---0--0--7-7-5-----
 E-----

The little run that starts with the 7 on the A, I'm not sure if it's exact, but it sounds pretty cool.
