

Stuart A. Staples - Goodbye To Old Friends

Tom: A
Intro: (0:00)

Gbm

Verse (0:07)

Gbm
It's not that I don't love you
Or are tired of your ways

E
I want you to know

Gbm
That's I'm always thinking of you
You know I'd take you with me

E
Wherever I go

Verse (0:36)

Gbm
But I catch myself in the mirror
And I remember I gotta do something about my life
Gbm
For I'm as empty as the clothes that I laid
E
Crumpled where they fell to the floor

Verse (1:04)

Gbm
I'm as empty as the ten green bottles
E
Hanging in my mind from the night before
Gbm
And an ashtray full of moments
E
Spent thinking about the things I should have done

Chorus (1:30)

Gbm
I say goodbye to another old friend
E
Yeah they stayed through thick and thin
Gbm
Through the laughter and the tears
E
Through every state that I've been in

Gbm
And I know they don't wanna hurt me
E
But I can see it in their eyes
Gbm
That they're killing me so gently
E
How can I ever say goodbye

Verse (2:26)

Gbm
For as young me we clattered through these streets
E
And how we hit this town running

Gbm

And we were so sure of being us

E
We flattened everything that stood in our path

Gbm
Now I wake up and I have to find myself

E
Through all the shit that once told me who I was

Chorus (3:04)

Gbm
I say goodbye to so many old friends

E
Here I left them to the wind

Gbm
And there ain't much point in chasing

E
The things you can never get back again

Gbm
But there's still some life in this one

E
Give me a match and I'll reminisce

Gbm
Of a time when we were younger

E
And we were stealing our first crack

Verse (3:58)

Gbm
And our thoughts had turned to dying

E
And we were unaware at the time

Gbm
That this ride it could ever fall...

E
Could ever slow down to this time...

Verse (4:24)

Gbm
For I've been drunk and stoned and feeling mellow

E
And that's how I've been getting through

Gbm
Looking at the blurry shapes around me

E
Thinking I knew more than I knew

Verse (4:52)

Gbm
And it's not that I don't love you

E
Or are tired of your ways

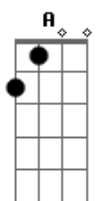

Gbm
If I could only take you with me

E
If I could only ease this pain
