

# Sublime - Greatest Hits Intro

Tom: **C**

Repeat the phrase before the lines then go to this one

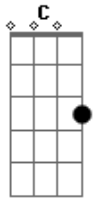

I saw a tab for this song and the intro used ska chords and i dont think it gives it the sound. Instead for the intro I play it off of an **A** Maj Chord, and I think it sounds a more accurate.

(Listen to the song for the rhrythm its not too hard)  
oh and rate my tab and comment it and stuff becuae i hardly ever wright tabs im just bored so blehhh here it goes

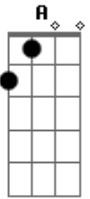

This works best if you just keep your hand in the **A** Maj chord the whole time thats what do hopefully this works. if not i probably tabbed it way wrong because i SUCK at tabbing.

idk why people do this without getting paid its so boring. well, someones gotta do it...
