Tuning: standard (eadgbe)

noticed a few errors (mostly typos (missing out a number or writting on the wrong line)) whilst checking this (probably should have checked it before submitting it. hopefully the higher powers (admins) will remove the other one)

lil bit of pause

Im not gonna pretend its perfect but as far as i know its the only one on the net (or anywhere. i havent even found a tab for sale for this song). numbers in brackets near the beggining are played on the bass but if ur

bit of a bigger pause (with a lil bita drummin)

i put them there)

this run down should

Intro: (over words):

hold that bend

This lines all done on the bass

| 5b bend from note outside of bracket to note inside
 | rb5 reverse bend (start with string bent to note in bracket and come down to note outside bracket)

back to guitar for some picked chords

| / slide up
 | \ slide down
 | h hammer-on
 | p pull-off
 | ~ vibrato
 | x Mute note

Then its just one big guitar solo here on in
