

Summer Salt - Sweet To Me

tom:

Intro: E Gbm D E7

You're so sweet to me
Will you be sour later?

Let's climb in our tree
Looking back, looking back I

Remember

Stepping out on the moon
Back home where we're from
Digging your company

These days have just begun

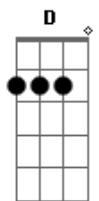

Now a days the wave ride high as we crash on
The ocean floor

Dusting off the daisy chain you

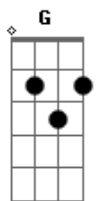

Wore when life was new and strange
Taking us back for a change

You're so sweet to me
Bringing treats back from the food
Trailer

I could leave you a key
Kicking back, kicking back
Feeling lazy

Tripping around the house

Been away too long
Spinning me all your love
Though I'm lost and gone

Now a days you're still my partner in

Crime my cherry lime
Shaking out the stereo with songs we

Used to know and sing
Taking us back for a change
