

Sundara Karma - Vivienne

Tom: C

[Intro] C Am F C Am F

Wild eyes, skinny jeans
Disengaged at just 19
You and I stuck in the inbetween

[Pre-Chorus]

Come on baby
Let's feel alive
We can change the world if we stop getting high
But you know I'd give it all up
Just to spend it with you

[Chorus]

If you say I need you
To fall in deeper, I'd fall
Just to stay with you
You know I'd give you it all
Vivienne

I never knew, didn't see
That fate could be
So tounge in cheek
A loving kindness that's
Both brutal and bleak

[Pre-Chorus]

Come on baby
Let's feel alive
We can change the world if we stop getting high
But goddamn I give it all up
Just to spend it with you

[Chorus]

If you say I need you
To fall in deeper, I'd fall
Just to stay with you
You know I'd give you it all
Vivienne Vivienne

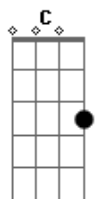

And the feel
That were close to the fear
Heaven knows
We pray, we hope
And we wait, we go
Time after time, as the day touches the night
Like a child I cry, 'cause it's all goodbye
Though I crumble on my mess
We don't crawl in the west
Live and hope for the best
Fuck it all up the rest

[Chorus]

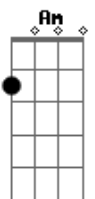

If you say I need you
To fall in deeper, I'd fall
Just to stay with you
You know I'd give you it all
Vivienne

Time after time, as the day touches the night (Vivienne)
Like a child I cry, 'cause it's all goodbye (Vivienne)
Though I crumble on my mess
We don't crawl in the west (Vivienne)
Live and hope for the best
Fuck it all up the rest (Vivienne)
