

Surfaces - Come With Me (feat. Salem Ilese)

tom: D

Another Tuesday G D

And we sleep in till when it's too late D

'Cause summer is whatever you say Bm G

So, I don't mind at all, at all D Bm

It's a new place G

If we close our eyes and paint a new way D

'Cause somewhere is wherever you say Bm G

So summer turns to fall, oh D Bm

And when the days feel like the same old circle G

We'll bend the lines and make a new one D Bm

Just to find the place where time is free G D Bm

So, baby, come with me G

As far as eyes can see D Bm

So, baby, come with me G

And what is will be D Bm G

What is will be D Bm

And what is will be G

You take a Wednesday D

And you make it seem like it's the first day Bm

Of the whole-wide week G

You got that PCH type of energy D Bm

Without the traffic, ooh G

There's never bad days D

When a good time is whatever we say Bm

And the Sun's shinin' G

So, what's your ETA? D Bm

'Cause I just can't wait to go, ooh G

And when the days feel like the same ol' circle D Bm

We'll bend the lines and make a new one G D

Just to find the place where time is free Bm

(Time is free) G

So, baby, come with me D Bm

As far as eyes can see G

So, baby, come with me D Bm G

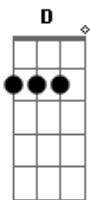

And what is will be D Bm

Now what is will be, now what is D Bm

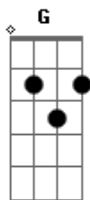

Now what is will be G

And what is will be D Bm
