

Surfaces - Come With Me (feat. Salem Ilese)

tom:
 Another Tuesday
 And we sleep in till when it's too late
 'Cause summer is whatever you say
 So, I don't mind at all, at all
 It's a new place
 If we close our eyes and paint a new way
 'Cause somewhere is wherever you say
 So summer turns to fall, oh
 And when the days feel like the same old circle
 We'll bend the lines and make a new one
 Just to find the place where time is free
 So, baby, come with me
 As far as eyes can see
 So, baby, come with me
 And what is will be
 What is will be
 And what is will be
 You take a Wednesday

And you make it seem like it's the first day
 Of the whole-wide week
 You got that PCH type of energy
 Without the traffic, ooh
 There's never bad days
 When a good time is whatever we say
 And the Sun's shinin'
 So, what's your ETA?
 'Cause I just can't wait to go, ooh
 And when the days feel like the same ol' circle
 We'll bend the lines and make a new one
 Just to find the place where time is free
 (Time is free)
 So, baby, come with me
 As far as eyes can see
 So, baby, come with me
 And what is will be
 Now what is will be, now what is
 Now what is will be
 And what is will be
