

# Suriel Hess - Don't Wanna Know

tom:

Intro: G D Em C

Tell me that it's my fault  
My fault that it's over  
Wish I played it different  
I didn't know  
All the times that you called  
Called me to be closer  
Wish I paid attention

You're probably with your friends dancing on tabletops  
Hands in his hair already saying that you forgot, about me

I just don't wanna know  
Who you give your lovin' to  
You'll end up leaving here with someone (I just don't wanna know)  
You'll be drinking way past two  
Lights out and it's not me you're loving

I just don't wanna know  
( G D Em C )

Cold sheets when you're leaving  
Used to sleep between them  
Now I'm sleeping different  
I let you go  
I'm not used to feeling  
Feeling like I'm needed  
Guess I must've missed it

You're probably with your friends dancing on tabletops  
Hands in his hair already saying that you forgot, about me

I just don't wanna know  
Who you give your lovin' to  
You'll end up leaving here with someone (I just don't wanna know)  
You'll be drinking way past two  
Lights out and it's not me you're loving

I just don't wanna know
