

Suriel Hess - Good Thing

tom:

[Primeira Parte]

Wish I could stay here
Can't deny I like the rush

Wish I could lay here
But?I?m?afraid I'll take?too much, and overdose
Too much of?you and you never know. Got my
Lips blue, eyes closed. Mmmm

[Pré-Refrão]

Every time you get too close I cover it up
Wanna get to know you but I?m no good at love
One hit at a time so it isn?t too much, all too much

Every time you get too close I cover it up
Wanna get to know you but I?m no good at love
One hit at a time so it isn?t too much, all too much

[Refrão]

Too much of a good thing, it might kill ya
To know how much I?ve been feeling for ya
It might feel like, all too much

Too much of a good thing, it might kill ya
To know how much I?ve been feeling for ya
It might feel like, all too much

[Segunda Parte]

Scared to admit it
Got me wrapped up in your touch

Wish I could quit this
Before we both take away too much, and overdose
Too much of you and you never know. Got my

Lips blue, eyes closed. Mmmm

[Pré-Refrão]

Every time you get too close I cover it up
Wanna get to know you but I?m no good at love
One hit at a time so it isn?t too much, all too much

Every time you get too close I cover it up
Wanna get to know you but I?m no good at love
One hit at a time so it isn?t too much, all too much
[Refrão]

Too much of a good thing, it might kill ya
To know how much I?ve been feeling for ya
It might feel like, all too much

Too much of a good thing, it might kill ya
To know how much I?ve been feeling for ya
It might feel like, all too much
[Ponte]

What if, I like, like being wasted on you
I?m scared, it might be all too much

(Too much of a good thing)

What if, I like, like being wasted on you
I?m scared, it might be all too much
[Refrão]

Too much of a good thing, it might kill ya
To know how much I?ve been feeling for ya
It might feel like, all too much

Too much of a good thing, it might kill ya
To know how much I?ve been feeling for ya
It might feel like, all too much

Too much of a good thing!
