

# Symbol - Forever Young

Tom: C

m

Forever - together, forever - together

( Cm Eb Bb Ab )

(Forever young we are all for one)

Forever - together

Forever love and fun until the morning sun

Forever

Come on baby light my fire

Ready for the show

Now I feel your love desire

Please don't ever go

Crazy dance and sexy power

All I need is you

Tonight I'll take you higher

If you love me too

All the time I need your shining smile

Tonight I'm really going to play you know

That life is just a game

Forever young we are born to run

Forever love and fun until the morning sun

Forever young we are all for one

Forever love and fun until the morning sun

Forever

Come on baby let your body pump into the groove

Shake your boogie feel the music jumping like a fool

I don't care I'm so excited now I feel so free

Paradise into your eyes so let it be

All the time I need your shining smile

Tonight I'm really going to play you know

That life is just a game

Forever young we are born to run

Forever

Forever love and fun until the morning sun

Forever young we are all for one

Forever love and fun until the morning sun

Forever

Come on baby light my fire

Ready for the show

Now I feel your love desire

Please don't ever go

Crazy dance and sexy power

All I need is you

Tonight I'll take you higher

If you love me too

All the time I need your shining smile

Tonight I'm really going to play you know

That life is just a game

Forever young we are born to run

Forever love and fun until the morning sun

Forever young we are all for one

Forever love and fun until the morning sun

Forever - together, forever - together

( Cm Eb Bb Ab )

(Forever young we are all for one)

Forever

I don't care I'm so excited now I feel so free

Paradise into your eyes so let it be

( Ab Bb Cm Eb Ab )

You know That life is just a game

Forever - together, forever - together

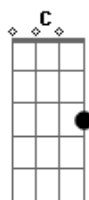

(Forever young we are all for one)

Forever young we are all for one

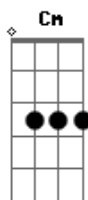

Forever love and fun until the morning sun

Forever
