

Tabatha! - Stay

tom:

^C
Saw you for the first time standing by the sea ^F
Reaching for the stars and for something you can't see ^C
Gave up every second just to look at you ^F
'Cause I was seeking something brand new and ^G
I wanted you ^C
Never thought I'd be so in love with your smile ^F
Everything enchants me when you are around ^C
You give me reasons both to stay and to move on
But now I'm searching for the right one ^F ^G ^C
You say we're never getting back ^{C7M}
The feelings that we used to have ^F
But baby you know me so

Kiss me like you mean it make it right and stay
(Stay a little while with me tonight)

Baby don't conceal it let it shine and take ^G
(Take your time to make me feel alive)

I know I'm not that perfect and I'm a mess
Inside, but I'm all you've ever needed ^F
(Say you won't let go of me tonight) ^G

Leave all your lonely feelings, I'll give you happiness
