Tom: G

```
      D                              Gbm
You, you're such a big star to me
                                Am
You're everything I wanna be
                     G                      D
But you're stuck in a hole and I want you to get out
                     Gbm
I don't know what there is to see
                          Am
But I know it's time for you to leave
                      G
We're all just pushing a-  long
                   Gbm
Trying to figure it out, out, out
    Bm           A            G
All your anticipation pulls you down
        D                E
When you can have it all
D                 A
You can have it all, all, all
```

D                        Gbm
Stop being so hard on yourself

It's not good for your health

I know that you can change

So clear your head and come round
                      Gbm
You only have to open your eyes

You might just get a big surprise
                G                         Gb
And it may feel good and you might want to smile, smile,
smile, oh
Bm            A           G
Don't you let your demons pull you down
        D              E
'Cause you can have it all
