Fallin' out with a lover
                           tom:
                                                             You didn't know that I suffered
Intro: Gm D F Cm
 Gm D F Eb
                                                             What a thing to discover
                                                             There was time to recover
Ever since I was a small boy
                                                             One-on-one with each other
                                    Fh
No one else compared to you, no way
                                                             Just a boy and a father
I always?thought?heroes stay close
                                                             What I'd give for another
              F Bb Eb
Whenever?troubled times arose
                                                             Everything that I have
I didn't know
                                                             Wouldn't need this for long
Ain't always?how it goes
                                                             Never speak of the time
                                                             That you left us alone
Every single word you told me
                                                             Me and Steve on our own
                  D
I believed without a question, always
           D
                                                             I wanna tell you 'bout the time
To save all of us, you told us both to trust
                      Bb
                                                             Wanna tell you 'bout my life
But now I know you only saved yourself
                                                             Wanna play you all my songs
                                                             Learn the words, sing along
Did you think I'd never know?
                 Dm

                                                             (This time) Wanna tell you 'bout the time
                                                             (I know) I was in Abbey Road
       And you could store an ocean in the holes
                                                             Or the time that I had
In any of the explanations that you gave
                                                             Mick Jagger on the phone
And while you still had time, you had a chance
                                                             I thought of you when we spoke
  Gm F Bb
But you decided to take all your sorries to the grave
                                                             Wanna tell you 'bout the time
                                                             Wanna tell you 'bout my life
Did you think I'd never know?
                                                             Wanna play you all my songs
Never wise up as I grow?
                                                             Hear your voice sing along
Did you hope I'd never doubt?
                                                             (This time) I wanna say, "It's all right"
Never wonder, work it out?
                                                             (I know) You're just a man after all
(D Cm F D Cm F)
                                                             And I know you have demons

                                                             Wanna tell you 'bout the time
                                                             Wanna tell you 'bout my life
You were runnin' for cover
                                                             Wanna play you all my songs
Doin' like any other
                                                             And hear your voice sing along
