Taproot - Run To

```
                       tom:
                         G
              Em
I don't want the hall of fame
C
I just want you to know my name
Em
I can't see just where you are
     C
But it's alright

Em
Somewhere out there in the night
C
Someone's feeling out of sight
Em
I can't see just where you are
C
But it's alright

G                            C
I can be the one you run to tragedy
G                            C
I can be the one to show you destiny
G
I can be the rock you're needing
C
I can be the crutch to help you be
G   D   Am   G  C
Who you want to be

Em
I can fix a broken frame
     C
But I can't help you all the same
Em
I can't see just where you are
     C
But it's alright
```
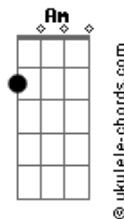

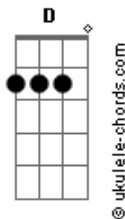

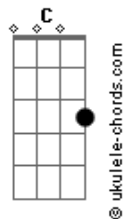

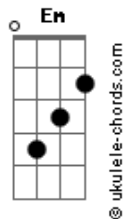

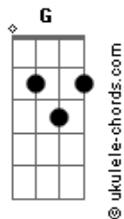

```
Em
Somewhere out there in the night
C
Hiding from the will to fight
Em
I will be your shining star
C
And give you light

G                            C
I can be the one you run to tragedy
G                            C
I can be the one to show you destiny
G
I can be the rock you're needing
C
I can be the crutch to help you be
G   D   Am   G  C
Who you want to be

      C                            G
When all is said and done I'm still behind you
      C                                 G
The past has come and gone now just move on through
     C                         G
No matter when it is you come to see
G   D   Am   G  C
Who you want to be

G                            C
I can be the one you run to tragedy
G                            C
I can be the one to show you destiny
G
I can be the rock you're needing
C
I can be the crutch to help you be
G   D   Am   G  C
Who you want to be
```
