

Tasha Page Lockhart - Over And Over

```
I've made some foolish mistakes
Intro: Gb7M Fm7 Ebm7 Db7M
                                                                                            B Gb7 Ab Gb E Dbm7
                                                              Because I let in sin draw me away (over)
                 Fbm7
                                                                 Dbm7 - Dbm7 Gb7
Every now and then
                                                              Each time I let myself down
                                                                               Α
I remember when
                                                              Your grace it always abounds
                Gb7M Fm7 Fbm7 Db7M
       Gb7M
                                                                              Gbm7
                                                              And I wanna say thank You (over)
I went out on my own
Searching here and there
                                                              For giving me another chance (over)
                                                                    Abm7
                                                              You are so faithful (over)
For someone to care
                                                             Bm7
       Gbm7
                                                                          G#(#5)#
Feeling so all alone but
                                                              You (... and over)
                                                                      A7M
                                                              But You didn't throw me away (over)
             E7M
Through the fire
                                                             Bh
                                                             How many know that it's over and over? (over)
 Dbm7
                           A7M Am7
His love did not come to an end
                                                                        Dbm7 Db E Db Gbm7
                                                              (Greater than my sin)
    Abm7
In mv weakness
                                                             Greater than my sins (over)
Dbm7
                 Fbm7
                                  Gbm7
                                                              Abm7 Bm7 G#(#5)#
Over (over... and over)
Your grace was greater
                                        than my sin
            Db7M/9
Over and over again
                                                              I don't know where to start (over)
                       Fbm7
The moment came and went
                                                             Don't know how to begin (over)
I was feeling discontent
               Gb7M Gb7M Fm7 Ebm7 Db7M
                                                             All I know is every time I looked around
Where was I supposed to go?
                 Fbm7
                                                              (Greater than my sin)
Then You came along
                                                                          Gb E Db C Ab G Gbm7
                                                              You keep on blessing me
Making right what once was wrong
                                                             You didn't throw me away (over)
              Gbm7
Your love never failed
                                                             When nights were long and days were gray (over)
  Α
And now I know
                                                                                   Bm7
             E7M Abm7
                                                             I'll still remember You (over)
                                                                          G#(#5)#
Through the fire
                                                             How You loved me anyway (and over)
 Dbm7
                            A7M Am7
His love did not come to an end
                                                              I'll got down on my knees (over)
    Abm7
In my weakness
                                                              I cried "Father, help me please" (over)
Dbm7
                       Gbm7
                                                              Abm7
Your grace was greater than my sin
                                                              Your grace, it never fails (greater)
                                                             Now I stand in victory
Over and over
Through the fire
 Dbm7
                            A7M Am7
                                                             Through the fire
His love did not come to an end
                                                              Your love did not come to an end
      Abm7
In my weakness
                                                                                Abm7
Dbm7
                       Gbm7
                                                             O-oo-ooh In my weakness
Your grace was greater than my sin
                                                             Dbm7
                                                                                      Gbm7
    Ab Gb E Dbm7
                                                              Your grace was greater than my sin
Over and over
                     again
                                                             Over and over again
                             C
                                                              [Final] E7M/9 Dbm7 A7M Am7 B E7M/9
