

tate mcrae - Siren Sounds

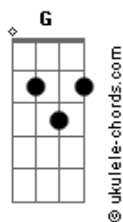

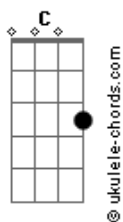

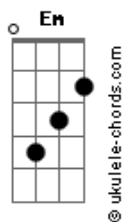

tom:
 I wanna kiss you when I hate you and then leave instead
 I wanna kill you, then I call you and say: Get in my bed
 Been a full year now and we both know that it's bound to end
 But kinda like just how hot it gets
 So stay for the night
 It'll bury the crime
 Tell me a lie
 It'll buy us some time

Oh, one more minute, it all burns down
 They're all telling us to get out
 But you and me, and me
 We'd keep living in a burning house
 Might be crazy to stick this out
 But we can't see all the flames around
 You and me, and me
 We're just dancing to the siren sounds

I can get real cold when I need you, and you don't show up
 You can get cocky when you want me, and I say: I'm done
 Been a full year now, and we both know it's not good for us
 But we both love the smoke in our lungs

So stay for the night

Acordes

It'll bury the crime
 Tell me a lie
 It'll buy us some time
 Oh, one more minute, it all burns down
 They're all telling us to get out
 But you and me, and me
 We'd keep living in a burning house
 Might be crazy to stick this out
 But we can't see all the flames around
 You and me, and me
 We're just dancing to the siren sounds
 (Siren sounds)
 (Siren sounds)
 Siren, siren
 Siren sounds

Oh, one more minute, it all burns down
 They're all telling us to get out
 But you and me, and me
 We'd keep living in a burning house
 Might be crazy to stick this out
 But we can't see all the flames around
 You and me, and me
 We're just dancing to the siren sounds
