

Tauren Wells - Has To Be God

Em tom:

[Primeira Parte]

When I think of how the moon has the ocean on a string
 And you hold me in your gravity
 It's God
 It has to be God
 And when I hear the man singin' our song on the street
 There's somethin' that lifts me like a melody
 It's God
 Yeah, it has to be God

[Pré-Refrão]

It's bigger than religion and it's more than just a dream
 It's higher than logic when it comes to you and me
 It's God

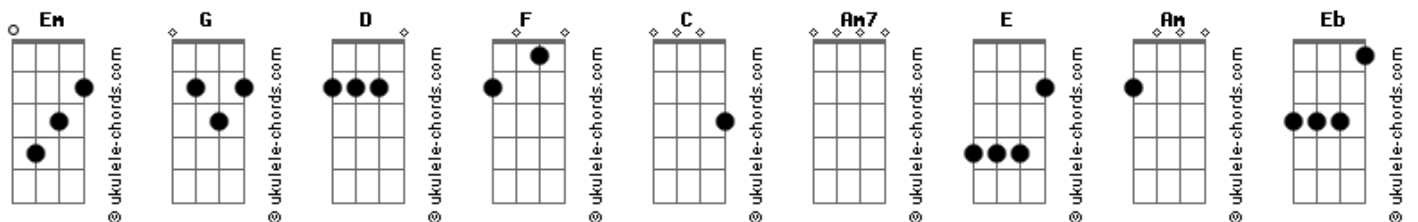

[Refrão]

Can't deny the truth
 When I look at you
 This love that we've got
 It has to be God
 I can feel the proof
 When I'm holding you
 This love that we've got
 It has to be God

[Segunda Parte]

Some people say it's fat?, but there's only One to blam?
 For the fortune (Oh), blessings (Hey) that we can't contain (Oh)
 It's God (Oh)
 It has to be God (Hey)

This love has got me singing hallelujah
