

Taylor Castro - I Got You

tom:

Intro: C

Oh, I'd cross the seven seas
To see you smile that smile
And I'd climb the highest peak
To stay a while
And just a while

How I love you 'cause you understand
Sometimes I could use a hand

I Got You
Through all the ups and downs
You got me too
When trouble's all around
I Got You
Though there's darkness in the clouds
A light is shining down
When the Earth has fallen through
I Got You

Oh, I'm sorry if you've ever felt that I
I didn't care
Because I've always known
That you are like the air
You're always there

Dm Am

I'll breathe it with you
