

Roger Taylor - Man On Fire

tom: G

Intro: D

[Primeira Parte]

I walk these streets each and every day
 Trying to find some work just to earn my pay
 Just to make some plans for you some day
 But plans don't work and it's not that fine
 When you've got no money all you've got is time
 Don't it make you stop and wonder why

[Refrão]

Sometimes I feel like a man on fire
 Sometimes I feel like a man possessed
 Sometimes I wanna burn down this crazy town
 (C A Gb G D)

[Segunda Parte]

I walk these streets each and every night
 Feel I'm playing my role but it fits too tight
 Watch my life go by in black and white
 When times are hard and times are rough
 Then you better be made of sterner stuff

You'll find it's time to stop and wonder why

[Terceira Parte]

I'm smokin' - I'm burnin'
 I'm twisting and turning
 But one thing I'm learning
 It's the power of your love keeps me under their thumb
 'Cos the beat of your heart is the beat of my drum
 Don't it make you stop and wonder why

[Refrão]

Sometimes I feel like a man on fire
 Sometimes I feel like a man possessed
 Sometimes I wanna burn down this crazy town
 Sometimes I feel like a man on fire
 Sometimes I feel like a man possessed
 Sometimes I wanna burn down this crazy town
 Sometimes I feel like a man on fire
 Sometimes I feel like a man possessed
 Sometimes I wanna burn down this crazy town
