Let's break it down, I'll take the story from the slamming of the door
G
Thought it was perfect for a second, guess you weren't quite as sure

Maybe I'm a little hard to get, maybe you didn't have the patience

D
Let's assess the situation

That girl was biding her time, yeah, she was waiting on your cue

So somehow I'm not surprised to see her standin' there with you

Bm
Maybe she's a little overdressed and I can see the smile you're fakin'

D
And the deep breath you're takin'

[Pré-Refrão]

D
When you see me now, you're not looking at her
Bm
Yeah, it's a long way down from the bridges you burned
D
Might wanna sit down, I'm calling you out
D
Right now

[Refrão]

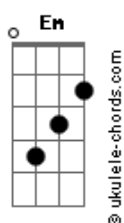

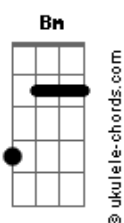

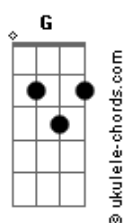

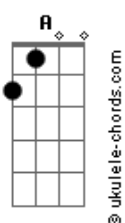

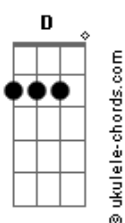

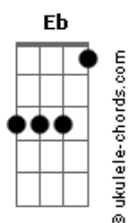

D
Bm
'Cause you're a heartbreaker and she's a little drama queen
G
I'm a little over it and she's still not me
D
So long and back to reality
G
But this song's for you and your drama queen

[Segunda Parte]

D
A
As I was saying, I was never quite a fan of the little games
G
It doesn't take too long to see that boys like you are all the same

Maybe I'm a little less obsessed, but she's impressed

Acordes

[Pré-Refrão]

And I can see it now, how it's all gonna be
Bm
When she freaks out, you'll be thinkin' of me

'Cause what went down is coming back around

You'll see
