All I knew this morning when I woke
                                                                  I just want to know you better know, you better know, you
Is I know something now, know something now
                                                                                            Dbm
                                                                  I just want to know you, know you, know you
I didn't before
And all I've seen since 18 hours ago
                                                                  Cause all I know is we said hello
Is green eyes and freckles and your smile in
                                                                  And your eyes look like coming home
The back of my mind making me feel like
                                                                  All I know is a simple name, everything has changed
                                                                 All I know is you held the door
I just want to know you better know, you better know you,
                                                                 Dbm
                                                                  You'll be mine and I'll be yours
                                                                  All I know since yesterday, is everything has changed
I just want to know you better know, you better know, you
better now
                                                                  Come back and tell me why
I just want to know you better know, you better know, you
                                                                  I'm feeling like I've missed you all this time
                                                                  Ahhh And meet me there tonight
                          Dbm
I just want to know you, know you, know you
                                                                  And let me know that it's not all in my mind
Cause all I know is we said hello
And your eyes look like coming home
                                                                  I just want to know you better know, you better know, you
All I know is a simple name, everything has changed
                                                                  I just want to know you, know you, know you
All I know is you held the door
You'll be mine and I'll be yours
                                                                  Cause all I know is we said hello
All I know since yesterday, is everything has changed
                                                                  And your eyes look like coming home
(EEEEEE)
                                                                  All I know is a simple name, everything has changed
                                                                 All I know is you held the door
And all my walls stood tall, painted blue
                                                                 Dbm
                                                                  You'll be mine and I'll be yours
But I'll take them down, take them down
                                                                 All I know since yesterday, is everything has changed
And open up the door for you
          Dbm
And all I feel in my stomach is butterflies
                                                                 All I know is we said hello
The beautiful kind, making up for lost time
                                                                  So dust off your highest hopes
Taking flight, making me feel like
                                                                 All I know is pouring rain
                                                                  And everything has changed
I just want to know you better know, you better know you,
                                                                 All I know is a new found grace
hetter now
                                                                 Dbm
                                Dbm
                                                                 All my days, I'll know your face
                                                                 All I know since yesterday, is everything has changed
