Taylor Swift - Forever And Always

```
                      tom:
                 Bb (forma dos acordes no tom de G )
Capostraste na 3ª casa
                            C
Once upon a time
      G             D
I believe it was a Tuesday
          C
When I caught your eye
       G            D
We caught onto something
           C
I hold onto the night
      G               D
You looked me in the eye
              C      D
And told me you loved me

Were you just kidding?
               C
'Cause it seems to me
     G                     D
This thing is breaking down
             C
We almost never speak
             G           D
I don't feel welcome anymore
              C
Baby what happened
                          G
Please tell me cause one second it was perfect
                         D
Now you're halfway out the door

                   C
And I stare at the phone
          G
He still hasn't called
            D            Em
And then you feel so low you can't feel

Nothing at all
           C               G
And you flashback to when he said
          D
"Forever and always"
             C
Oh, and it rains in your bedroom
G
Everything is wrong
     D                       Em
It rains when you're here and it rains

When you're gone
          C             G
'Cause I was there when you said
              D
"Forever and always"

C
When my silence came
    G
We were shaking, blind, and hazy
Em                   D
How the hell did we lose sight of us again?
C                      G
Sobbing with your head in your hands
       Em               D
Ain't that the way shit always ends?
C                       G
You were standing hollow-eyed in the hallway
```

```
Em                         D
Carnations you had thought were roses
               C
That's us
              G
I feel you, no matter what
D
The rubies that I gave up
          C          G
And I lost you
       Em        D
The one I was dancing with
            C        G
In New York, no shoes
          Em      D
Looked up at the sky, and it was
          C
The burgundy on my T-shirt
                      G
When you splashed your wine onto me
                   Em
And how the blood rushed into my cheeks
          D
So scarlet, it was
          C
The mark you saw on my collarbon?
          G
The rust that grew between t?lephones
            Em
The lips I used to call "home"
          D
So scarlet, it was maroon

( C  G  Em  D )

         C                    G
And I wake, with your memory over me
            Em                 D
That's a real fucking legacy, legacy
          C                  G
And I wake with your memory over me
            Em              D
That's a real fucking legacy to leave

     Em             C
Oh back up, baby back up
             D
Did you forget everything?
Em              C
Back up, baby back up
             D          C
Did you forget everything?

          C
The burgundy on my T-shirt
                      G
When you splashed your wine onto me
                   Em
And how the blood rushed into my cheeks
D
So scarlet, it was
          C
The mark you saw on my collarbon?
          G
The rust that grew between t?lephones
            Em
The lips I used to call "home"
          D                C  G  Em  D
So scarlet, it was maroon
                    C  G  Em  D
And it was maroon
                          C
And it was maroon
```
