

## Taylor Swift - If This Was a Movie

```
Stand in the rain outside 'til I came out
                            tom:
                E (forma dos acordes no tom de D )
Capostraste na 2ª casa
                                                                Come back, come back, come back to me-e like
Intro: G A Bm A
                                                                You could, you could, if you just said "You're sorry"
Last night I heard my own heart beating
                                                                I know that we can work it out somehow
Sounded like footsteps on my stairs
                                                                But if this was a movie you'd be here by now
Six months gone and I'm still reaching
                                                                ( A Bm A )
Even though I know you're not there
                                                                  If you're out there if you're
I was playing back a thousand memories baby
                                                                Somewhere if you're moving on
Thinkin bout everything we've been through
                                                                I've be waiting for you
Maybe I've been going back too much lately
                                                                Ever since you've been gone
When time stood still and I had you
                                                                I just want it back the way it was before
                                                                                                  Bm A
Come back, come back, come back to me-e like
                                                                And I just wanna see you back at my front door
You would, you would, if this was a movie
                                                                And I'd sav
Stand in the rain outside 'til I came out
                                                                Come back, come back, come back to me-e like
Come back, come back, come back to me-e like
                                                                You would, before, you said it's not that easy
You could, you could, if you just said "You're sorry"
                                                                Before the fight before I locked you out
I know that we can work it out somehow
                                                                But I'd take it all back now
But if this was a movie you'd be here by now
( A Bm A )
                                                                Come back, come back, come back to me-e like
                                                                You would, you would, if this was a movie
I know people change and these things happen
                                                                Stand in the rain outside 'til I came out
But I remember how it was back then
                                                                Come back, come back, come back to me-e like
Locked up in your arms and our friends are laughing
                                                                You could, you could, if you just said "You're sorry"
'Cause nothing like this ever happened to them
                                                                I know that we can work it out somehow
Now I'm pacing down the hall
                                                                But if this was a movie you'd be here by now
Chasing down your street
Flashback to the night when you said to me
                                                                You'd be here by now
Nothings gonna change not for me and you
                                                                It's not the kind of ending you wanna see now
Not before I knew how much I had to lose
                                                                Baby what about the ending, Oh
                                                                                           G A Bm A G A Bm
                                                                I thought you'd be here by noow ohhoohhohhohh
Come back, come back, come back to me-e like
                                                                                         G
                                                                  That you'd be here by now
You would, you would, if this was a movie
