

# Taylor Swift - Invisible

Tom: **G**

**G**  
She can't see the way your eyes, **D**  
**Am** Will light up when you smile **C**  
**G** She'll never notice how you stop and stare **D**  
**Am** Whenever she walks by **C**  
**C** And you can't see me wanting you the way you want her **D**  
**C** But you are everything to me

**G**  
And I just want to show you **D**  
She don't even know you **C** **D**  
She's never gonna love you like I want to **G**  
And you just see right through me **D**  
But if you only knew me **C** **D**  
We could be a beautiful miracle unbelievable **G**  
Instead of just invisible

**G** There's a fire inside of you **D**  
**Am** That can't help but shine through **C**  
**G** She's never going to see the light **D**  
**Am** No matter what you do **C**

**C** And all I think about is how to make you think of me **D**  
**C** And everything that we could be

**G**  
And I just want to show you **D**  
She don't even know you **C** **D**  
She's never gonna love you like I want to **G**  
And you just see right through me **D**  
But if you only knew me **C** **D**  
We could be a beautiful miracle unbelievable **G**  
Instead of just invisible

**C** Like shadows in the faded light **G**  
**C** Oh, we're invisible **D**  
**G** I just wanna open your eyes **C**  
and make you realize

**G** I just want to show you **D**  
She don't even know you **Am** **C**  
Baby let me love you, let me want you **G**  
You just see right through me **D**  
But if you only knew me **Am** **C**  
We could be a beautiful, miracle unbelievable **G**  
Instead of just invisible

**G** She can't see the way your eyes **D**  
**Am** Light up when you smile... **C** (Opicional **G** como final)
