

Taylor Swift - Renegade (feat. Big Red Machine)

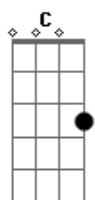

tom:

Intro: C F Dm G

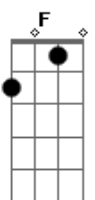

C F
I tapped on your window on your darkest night
The shape of you was jagged and weak
There was nowhere for me to stay, but I stayed anyway
And if I would've known
How many pieces you had crumbled into
I might have let them lay
Are you really gonna talk about timin? in
Times like these?
And let all your damage, damage me
And carry your baggage up my street
And make me your future history, it's time
You've come a long way, open the blinds
Let me see your face
You wouldn't be the first renegade, to need somebody
Am C
Is it insensitive for me to say
Get your shit together so I can love you?»
Am C
Is it really your anxiety that stops you from givin? me
F G
Everything? Or do you just not want to?
