Taylor Swift - So It Goes

```
                  tom:
                      A
          C
See you in the dark
Am
All eyes on you, my magician
Em
All eyes on us
A
You make everyone disappear, and
C
Cut me into pieces
Am
Gold cage, hostage to my feelings
Em
Back against the wall
A
Trippin', trip-trippin' when you're gone

          C
'Cause we break down a little
              Am
But when you get me alone, it's so simple
              Em
'Cause, baby, I know what you know
          A
We can feel it

              G
And all our pieces fall
      Em
Right into place
              Am
Getting caught up in a moment
          C
Lipstick on your face

So it goes
        G
I'm yours to keep
        Em
And I'm yours to lose
              Am
You know I'm not a bad girl, but I
          C
Do bad things with you

So it goes

C
Met you in a bar
Am
All eyes on me, your illusionist
Em
All eyes on us
A
I make all your gray days clear, and
C
Wear you like a necklace
Am
I'm so chill, but you make me jealous
Em
But I got your heart
A
Skippin', skip-skippin' when I'm gone

          C
'Cause we break down a little
              Am
But when I get you alone, it's so simple
                  Em
'Cause, baby, I know what you know
          A
We can feel it

              G
And all our pieces fall
      Em
Right into place
```

```
              Am
Getting caught up in a moment
                  C
Lipstick on your face

So it goes
        G
I'm yours to keep
              Em
And I'm yours to lose
                  Am
You know I'm not a bad girl, but I
              C
Do bad things with you

So it goes

G
Come here, dressed in black now
Em
So, so, so it goes
Am
Scratches down your back now
C
So, so, so it goes

C
You did a number on me
          Am
But, honestly, baby, who's counting?
Em
I did a number on you
                  A
But, honestly, baby, who's counting?
C
You did a number on me
          Am
But, honestly, baby, who's counting?
              Em          A
Who's counting?

One, two, three

                  G
And all our pieces fall (pieces fall)
          Em
Right into place
                  Am
Getting caught up in a moment (caught up, caught up)
                  C
Lipstick on your face

So it goes
        G
I'm yours to keep (oh)
              Em
And I'm yours to lose (baby)
                  Am
You know I'm not a bad girl, but I (I do)
              C
Do bad things with you

So it goes

G
Come here, dressed in black now
Em
So, so, so it goes
Am
Scratches down your back now
C
So, so, so it goes
G
Come here, dressed in black now
Em
So, so, so it goes
Am
Scratches down your back now
C
So, so, so it goes
```
