Taylor Swift - Treacherous

Tom: G
Intro: 2x: G   D   D   Em   C

```
G                        D
 Put your lips close to mine
     Em               C
 As long as they don't touch
G                    D
 Out of focus eye to eye
         Em            C
 Till the gravity is too much
G                    D
 And I'll do anything you say
       Em             C
 If you say it with your hands
G                         D           Em            C
 And I'd be smart to walk away but you're quick sand

G          D
 This slope is Treacherous
Em         C
 This path is reckless
G          D
 This slope is Treacherous
Em       C       G
 And I I I like it

G                         D
 I can't decide if it's a choice
Em              C
 Getting swept away
G                        D
 I hear the sound of my own voice
Em           C
 Asking you to stay
G                        D
 And all we are is skin and bone
   Em           C
 Trained to get along
G                     D
 Forever going with the flow
          Em       C
 But you're friction

G          D
 This slope is Treacherous
Em         C
 This path is reckless
G          D
 This slope is Treacherous
```

```
Em               C
 And I I I like it

D                Em                         C
Two headlights shine through the sleepless night
                       G                    D
 And I will get you will get you alone
                  Em            C
Your name has echoed through my mind
                G                             D
 And I just think you should think you should know
                  Em               C         G
 Them not being safe is worth the driving I will follow you
follow you home
          Em                C
 I follow you follow you home

G          D
 This hope is Treacherous
Em         C
 This day dream is dangerous
G          D
 This hope is Treacherous
Em     C
 I I I - I I I - I I I

D                Em                         C
Two headlights shine through the sleepless night
                       G                    D
 And I will get you will get you alone
                  Em            C
Your name has echoed through my mind
                G                             D
 And I just think you should think you should know
                Em               C
Them not being safe is worth the driving
          G                D
 I will follow you follow you home
          Em                C
I follow you follow you home
          G                D
 I will follow you follow you home
          Em                C
 I follow you follow you home

G          D
 This slope is Treacherous
Em     C
 I-I-I like it
