

Temas de Filmes - Space Jam

```
Tom: C
                                                                If I can see it, then I can do it.
  I Believe I Can Fly - R. Kelly
                                                                If I just believe it, there's nothing to it.
I used to think that I could not go on,
                                                               I believe I can fly. I believe I can touch the sky.
                                                                I think about it every night and day, spread my wings and fly
And life was nothing but an awful song
But now I know the meaning of true love,
                                                                I believe I can soar, I see me running through the open door.
I'm leaning on the everlasting arms
                                                                I believe I can fly, I believe I can fly, I believe I can fly.
If I can see it, then I can do it.
                                                                  Hey, Cause I Believe in me. Oh oh oh
If I just believe it, there's nothing to it.
                                                                If I can see it, then I can do it.
I believe I can fly. I believe I can touch the sky.
                                                                If I just believe it, there's nothing to it.
I think about it every night and day, spread my wings and fly
                                                                I believe I can fly. I believe I can touch the sky.
I believe I can soar, I see me running through the open door.
                                                                I think about it every night and day, spread my wings and fly
I believe I can fly, I believe I can fly, I believe I can fly.
                                                                I believe I can soar, I see me running through the open door.
See I was on the verge of breaking down.
                                                                I believe I can fly, I believe I can fly, I believe I can fly.
                                                                          Gbm6
Sometimes silence can be so loud.
                                                                If I just spread my wings (I can fly)
There are miracles in life I must acheive
                                                                I can fly (I can fly) - 3 vezes
                                                                          Gbm6
But first I know it starts inside of me. (Oh oh oh)
                                                                If I just spread my wings (I can fly)
                                                                     Db
                                                                I can fly (I can fly)
